### **Headscarves**

A dark, plain, unpattern, headscarf (no tassels, logos, fringes or brightly coloured clips) is acceptable, but the face must not be obscured in any way. This is for reasons of school security, in order to foster a sense of social cohesion and in order to discharge essential communication skills in education. In our view non-verbal communication, including facial expression is a vital part of a young person's education if they are to take full economic and social role in 21st century British society.
