## A Level Results Press Statement 13 August 2020

All our year 13 students have today received the results that they have been awarded through this year's grading process, which has been based on the exam boards' standardisation of the centre assessment grades that the school submitted.

When the school had to close back in March, our students were running towards the hurdles of their exams this summer and knew exactly what they had to do to jump them. They could see their futures clearly in front of them. Then, through no fault of their own, they had the track ripped up in front of them and pointed in a totally different direction.

As I knew they would do, Woodbridge students carried on working in the face of very challenging circumstances and huge uncertainty. Whilst the government have been moving the goalposts in front of their eyes, our students have shown resilience and immense strength of character. They are a credit to themselves and a credit to our school. I am very proud of them indeed.

It has been a nerve-wracking few weeks for students and their families as they have waited to find out their grades. Many were anxious about their futures, but most have been awarded grades that will enable them to go on to study their chosen courses at universities across the country.

Success in exams is always about a partnership between teachers, parents and students. This year it has been very different, but no less stressful. I am certain that all of our students who have received their results today will want to join me in thanking their parents for all their support, and in thanking the staff at Woodbridge for their patience and hard work, both before and during the school closure period.

Our heartfelt congratulations go to all of our students. We wish them very well indeed as they embark on the next stage of their lives.

Steven Hogan
